Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit ASC-KTE71484

Article Name	Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit
Biozol Catalog Number	ASC-KTE71484
Supplier Catalog Number	KTE71484
Alternative Catalog Number	ASC-KTE71484-48, ASC-KTE71484-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Mouse
Product Description	This Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit employs a two-site sandwich ELISA to quantitate HGFAC....
Range	Please inquire
Sensitivity	Please inquire
Tag	HGFAC
NCBI	54426
UniProt	Q9R098
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes	This Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit employs a two-site sandwich ELISA to quantitate HGFAC in samples. An antibody specific for HGFAC has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any HGFAC present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for HGFAC is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of HGFAC bound in the initial step. The color development is stopped and the intensity of the color is measured.
