| Category                   | Biochemikalien                                                                                                                                                       |
| Product Description        | SCF is a potent hematopoietic factor produced by a variety of cells, including lymphocytes, monocytes, fibroblasts, endothelial cells, myoblasts and osteoblasts.... |
| Molecular Weight           | 18 kDa                                                                                                                                                               |
| Tag                        | SCF                                                                                                                                                                  |
| NCBI                       | <a href="#">17311</a>                                                                                                                                                |
| UniProt                    | <a href="#">P20826</a>                                                                                                                                               |
| Purity                     | > 98% as determined by SDS-PAGE                                                                                                                                      |
| Form                       | Lyophilized from 20 mM Tris-HCl, 150 mM NaCl, pH8.0.                                                                                                                 |
| Sequence                   | Amino acid sequence derived from Mouse SCF (Lys26-Ala189) (P20826-1) was expressed.                                                                                  |
| Formula                    | 18 kDa                                                                                                                                                               |
