| Category                   | Kits/Assays                                                                                                                          |
| Application                | FA                                                                                                                                   |
| Species Reactivity         | All                                                                                                                                  |
| Product Description        | This is a metabolite assay kit for the Detection and Quantification of Hemoglobin Content. This product is for Research Use Only.... |
| Range                      | 1 µg/mL - 100 µg/mL                                                                                                                  |
| CAS Number                 | [9008-02-0]                                                                                                                          |
| Samples                    | Serum                                                                                                                                |
| Application Notes          | Detection Method: Colorimetric. Platform: Microplate reader 435 nm                                                                   |
