| Product Description        | The GENLISA Human Membrane-Spanning 4-Domains Subfamily A Member 4 (MS4A4A) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy an... |
| Range                      | 15.63 - 1000 pg/ml                                                                                                                                                                                                                                            |
| Sensitivity                | 6.4 pg/ml                                                                                                                                                                                                                                                     |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
