| Product Description        | The GENLISA Human Phospho-c-Jun N-Terminal Kinases/stress-activated Protein Kinase (p-JNK/SAPK) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consi... |
| Range                      | 0 - 1000 ng/ml* (May vary. Please confirm)                                                                                                                                                                                                                    |
| Sensitivity                | 30 ng/ml* (May vary. Please confirm)                                                                                                                                                                                                                          |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
