| Category                   | Molekularbiologie                                                                                                                                                                                                                                              |
| Product Description        | May play a role during embryogenesis. Source: Recombinant protein corresponding to aa1-299 from human CFDP1, fused to GST-Tag at N-terminal expressed in E. coli. Molecular Weight: ~60.6kD Amino Acid Sequence: MEEFDSEDFSTSEEDYVPSGGEYSEDDVNELVKEDEV...DG... |
| Molecular Weight           | 60.6                                                                                                                                                                                                                                                           |
| UniProt                    | <a href="#">Q9UEE9</a>                                                                                                                                                                                                                                         |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                 |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                             |
