| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Product Description        | 17-aa peptide from human APAF1. Apoptosis or programmed cell death is a fundamental cellular process that is essential for normal tissue development and abnormal growth. Apoptosis is driven by two classes of specialized proteases known as caspases (C... |
| Purity                     | Highly purified                                                                                                                                                                                                                                               |
| Form                       | Supplied as a liquid in PBS, pH 7.2                                                                                                                                                                                                                           |
