| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Recombinant protein corresponding to mouse Macrophage Inflammatory Protein 1 gamma epressed in E. coli.                                                                                                                                                       |
| Product Description        | MIP-1 gamma, also known as CCL9, is expressed constitutively by a wide variety of tissues. The cytokine has inflammatory, pyrogenic and chemotactic properties. Applications: Suitable for use in ELISA and Western Blot. Other applications not tested. R... |
| Purity                     | Purified by affinity chromatography.                                                                                                                                                                                                                          |
| Form                       | Supplied as a liquid in PBS, pH 7.2. Labeled with horseradish peroxidase (HRP).                                                                                                                                                                               |
