| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Pure Morus nigra M lectin from black mulberry, covalently linked to colloidal gold (40nm particle size). Lectins are derived from the extracts of plants, animals, viruses and microorganisms and are known to agglutinate red blood cells. These agglutin... |
| Form                       | Supplied as a liquid in dH2O, pH 7.0-7.5. Labeled with colloidal gold (40nm).                                                                                                                                                                                 |
