| Manufacturer               | US Biological                                                                                                                                                                                                                                                                                                     |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                                                                                 |
| Product Description        | Phosphopeptide that activates Src family members by binding with high affinity to their SH2 domain AA Sequence (linear): NH <sub>2</sub> -Glu-Pro-Gln-Tyr(PO <sub>3</sub> H <sub>2</sub> )-Glu-Glu-Ile-Pro-Ile-Tyr-Leu-OH Solubility: H <sub>2</sub> O Storage and Stability: Lyophilized powder may be stored... |
| Molecular Weight           | 1473                                                                                                                                                                                                                                                                                                              |
| Purity                     | ~90% by HPLC and MS analysis                                                                                                                                                                                                                                                                                      |
| Form                       | Supplied as a lyophilized powder.                                                                                                                                                                                                                                                                                 |
