| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Selectively inhibits protein tyrosine phosphorylation in cell extracts without being phosphorylated by Src, noncompetitive Src/EGF inhibitor Sequence (linear): H2N-Val-Ala-Pro-Ser-Asp-Ser-Ile-Gln-Ala-Glu-Glu-Trp-Tyr-Phe-Gly-Lys-Ile-Thr-Arg-Arg-Glu-OH... |
| Molecular Weight           | 2483                                                                                                                                                                                                                                                          |
| Purity                     | 95+% HPLC, Mass Spec                                                                                                                                                                                                                                          |
| Form                       | Supplied as a white to off-white lyophilized powder.                                                                                                                                                                                                          |
