| Category                   | Molekularbiologie                                                                                                                                                                                                                                                |
| Application                | ELISA, WB                                                                                                                                                                                                                                                        |
| Product Description        | Location: 15aa near the amino terminus of human TLR4 (1).<br>Applications: The peptide is used for blocking the activity of TLR4 (NT) antibody (Cat. T8050-32). It usually blocks the antibody activity completely in Western Blot by incubating the peptide ... |
| Purity                     | Purified                                                                                                                                                                                                                                                         |
| Form                       | Supplied as a liquid in PBS, pH 7.2, 0.1% BSA, 0.02% sodium azide.                                                                                                                                                                                               |
