| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FC, FLISA, RIA, WB                                                                                                                                                                                                                                            |
| Immunogen                  | Recombinant protein corresponding to human tumor necrosis factor receptor type 1.                                                                                                                                                                             |
| Product Description        | The immunoregulatory cytokine tumor necrosis factor alpha (TNFα) recognizes two cell surface receptors. TNF-R1 (also known as CD120a) has an apparent molecular mass of 55/60kD and is constitutively expressed on all nucleated cells, whereas TNF R2 (al... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [3H3103 H398]                                                                                                                                                                                                                                                 |

|         |                                                                                      |
|---------|--------------------------------------------------------------------------------------|
| Isotype | IgG2a                                                                                |
| UniProt | <a href="#">P19438</a>                                                               |
| Purity  | Purified by Protein A affinity chromatography from tissue culture supernatant.       |
| Form    | Supplied as a liquid in PBS, pH 7.2. Labeled with Fluorescein isothiocyanate (FITC). |
