| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FLISA, IHC, WB                                                                                                                                                                                                                                                |
| Immunogen                  | TWIST2 (AAH33168, 1-161aa) full length recombinant protein with GST tag. MW of the GST tag alone is 26kD.                                                                                                                                                     |
| Product Description        | Basic helix-loop-helix (bHLH) transcription factors have been implicated in cell lineage determination and differentiation. The protein encoded by this gene is a bHLH transcription factor and shares similarity with another bHLH transcription factor, ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [3C8]                                                                                                                                                                                                                                                         |
