| Category                   | Antikörper                                                                                                                                                                                                                                                                            |
| Application                | WB                                                                                                                                                                                                                                                                                    |
| Immunogen                  | Synthetic peptide derived from an internal region of the human, mouse, rat and golden hamster Ubc9 proteins.                                                                                                                                                                          |
| Product Description        | Ubiquitin-conjugating enzyme 9 (Ubc9) <sup>1-3</sup> is a component of the ubiquitin-mediated proteolytic SUMO (sentrin) pathway that targets proteins for degradation by the 26S proteasome, mediates endocytosis and directs protein subcellular localization. <sup>4,5</sup> Ub... |
| Purity                     | Epitope-affinity purified from rabbit antiserum.                                                                                                                                                                                                                                      |
| Form                       | Supplied as a liquid in PBS, pH 7.2. No preservatives added. Labeled with MaxLight(TM)550.                                                                                                                                                                                            |
