Human Soluble Cluster of Differentiation 40 Ligand (sCD40L) Microsample Fast ELISA Kit BYT-ORB1806755

Article Name	Human Soluble Cluster of Differentiation 40 Ligand (sCD40L) Microsample Fast ELISA Kit
Biozol Catalog Number	BYT-ORB1806755
Supplier Catalog Number	orb1806755
Alternative Catalog Number	BYT-ORB1806755-48,BYT-ORB1806755-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Soluble Cluster of Differentiation 40 Ligand (sCD40L) Microsample Fast ELISA Kit...
Range	62.5-4000pg/mL
Sensitivity	37.5 pg/mL
UniProt	P29965
Form	Ready to use
Samples	Serum, Plasma and Tissue homogenate and other biological samples,Sample volume:25µL
Target	sCD40L

Application Notes	Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human sCD40L. Samples (or Standards) are added to the micro ELISA plate wells and combined with the specific antibody and biotinylated detection antibody specific for Human sCD40L. Then Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human sCD40L, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human sCD40L. You can calculate the concentration of Human sCD40L in the samples by comparing the OD of the samples to the standard curve
