Mouse Growth Regulated Oncogene Alpha (GROalpha/CXCL1) Microsample Fast ELISA Kit BYT-ORB1806769

Article Name	Mouse Growth Regulated Oncogene Alpha (GROalpha/CXCL1) Microsample Fast ELISA Kit
Biozol Catalog Number	BYT-ORB1806769
Supplier Catalog Number	orb1806769
Alternative Catalog Number	BYT-ORB1806769-48,BYT-ORB1806769-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Mouse
Product Description	Mouse Growth Regulated Oncogene Alpha (GROalpha/CXCL1) Microsample Fast ELISA Kit...
Range	15.63-1000pg/mL
Sensitivity	9.38 pg/mL
UniProt	P12850
Form	Ready to use
Samples	Serum, Plasma and Tissue homogenate and other biological samples,Sample volume:25µL
Target	GROalpha/CXCL1

Application Notes	Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse GROalpha/CXCL1. Samples (or Standards) are added to the micro ELISA plate wells and combined with the specific antibody and biotinylated detection antibody specific for Mouse GROalpha/CXCL1. Then Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse GROalpha/CXCL1, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse GROalpha/CXCL1. You can calculate the concentration of Mouse GROalpha/CXCL1 in the samples by comparing the OD of the samples to the standard curve
