Rat Pituitary Adenylate Cyclase Activating Polypeptide 38 (PACAP-38) ELISA Kit BYT-ORB1946798

Article Name	Rat Pituitary Adenylate Cyclase Activating Polypeptide 38 (PACAP-38) ELISA Kit
Biozol Catalog Number	BYT-ORB1946798
Supplier Catalog Number	orb1946798
Alternative Catalog Number	BYT-ORB1946798-48,BYT-ORB1946798-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Rat
Product Description	Rat Pituitary Adenylate Cyclase Activating Polypeptide 38 (PACAP-38) ELISA Kit...
Range	7.82-500pg/mL
Sensitivity	4.69 pg/mL
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	PACAP-38

Application Notes

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Rat PACAP-38. During the reaction, Rat PACAP-38 in the sample or standard competes with a fixed amount of Rat PACAP-38 on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Rat PACAP-38. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Rat PACAP-38 in tested samples can be calculated by comparing the OD of the samples to the standard curve
