Product Datasheet

Human Thymopentin (TP5) ELISA Kit BYT-ORB1946834

Article Name	Human Thymopentin (TP5) ELISA Kit
Biozol Catalog Number	BYT-ORB1946834
Supplier Catalog Number	orb1946834
Alternative Catalog Number	BYT-ORB1946834-48,BYT-ORB1946834-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Thymopentin (TP5) ELISA Kit...
Range	1.57-100ng/mL
Sensitivity	0.94 ng/mL
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	TP5

Application Notes

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human TP5. During the reaction, Human TP5 in the sample or standard competes with a fixed amount of Human TP5 on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human TP5. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Human TP5 in tested samples can be calculated by comparing the OD of the samples to the standard curve
