## Product Datasheet

### Human Neurokinin A (NKA) ELISA Kit BYT-ORB1946842

Article Name	Human Neurokinin A (NKA) ELISA Kit
Biozol Catalog Number	BYT-ORB1946842
Supplier Catalog Number	orb1946842
Alternative Catalog Number	BYT-ORB1946842-48,BYT-ORB1946842-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Neurokinin A (NKA) ELISA Kit...
Range	15.63-1000pg/mL
Sensitivity	9.38 pg/mL
UniProt	<a href="#">P20366</a>
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	NKA

Application Notes

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human NKA. During the reaction, Human NKA in the sample or standard competes with a fixed amount of Human NKA on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human NKA. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm  $\pm$  2 nm. The concentration of Human NKA in tested samples can be calculated by comparing the OD of the samples to the standard curve
