Product Datasheet

Mouse Thyroglobulin (TG) ELISA Kit BYT-ORB1946862

Article Name	Mouse Thyroglobulin (TG) ELISA Kit
Biozol Catalog Number	BYT-ORB1946862
Supplier Catalog Number	orb1946862
Alternative Catalog Number	BYT-ORB1946862-48,BYT-ORB1946862-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Mouse
Product Description	Mouse Thyroglobulin (TG) ELISA Kit...
Range	125-8000pg/mL
Sensitivity	75 pg/mL
UniProt	O08710
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	TG

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse TG. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse TG and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse TG, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse TG. You can calculate the concentration of Mouse TG in the samples by comparing the OD of the samples to the standard curve
