| Category                   | Proteine/Peptide                                                                                                                                                                                                                                                           |
| Product Description        | This Mouse Por protein spans the amino acid sequence from region 276-525aa. Purity: Greater than 85% as determined by SDS-PAGE....                                                                                                                                         |
| Molecular Weight           | 34.2 kDa                                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">P37040</a>                                                                                                                                                                                                                                                     |
| Buffer                     | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.                                         |
| Source                     | Mus musculus (Mouse)                                                                                                                                                                                                                                                       |
| Purity                     | Greater than 85% as determined by SDS-PAGE.                                                                                                                                                                                                                                |
