## Product Datasheet

### **Phospho-MEK1 (Ser298) (Clone: H8) rabbit mAb PE conjugate, Clone: [MEK1S298-H8], Rabbit, Monoclonal ABI-12-4228-10**

|                            |                                                                                                                                                                                                                                                               |

| Species Reactivity         | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                  | A synthetic phosphoo-peptide corresponding to residues surrounding Ser298 of human phospho MEK1                                                                                                                                                               |
| Conjugation                | PE                                                                                                                                                                                                                                                            |
| Product Description        | Mitogen-activated protein kinase (MAPK) is the main building block of the intracellular signaling network. The signals are initiated by activation of a small G protein (e.g., Ras), followed by a sequential activation of several sets of protein kinase... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [MEK1S298-H8]                                                                                                                                                                                                                                                 |
| Form                       | Conjugated                                                                                                                                                                                                                                                    |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu\text{L}$ per million cells or 5 $\mu\text{L}$ per 100 $\mu\text{L}$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
