## Product Datasheet

### **Phospho-Lamin A/C (Ser22) (Clone: CF12) rabbit mAb, Clone: [LaminACS22-CF12], Unconjugated, Rabbit, Monoclonal ABI-12-4333**

|                            |                                                                                                                                                                                                                                                              |

| Species Reactivity         | Human, Mouse                                                                                                                                                                                                                                                 |
| Immunogen                  | A synthetic phospho-peptide corresponding to residues surrounding Ser22 of human phospho Lamin A/C                                                                                                                                                           |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                 |
| Product Description        | Lamins are nuclear membrane proteins that are involved with cell cycle control, chromatin organization, and DNA replication (1,2). Upon caspase 6 cleavage, lamin A/C serves as a molecular marker for caspase 6 activity. Lamin A/C is cleaved during ce... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                   |
| Clone Designation          | [LaminACS22-CF12]                                                                                                                                                                                                                                            |
| Form                       | Purified                                                                                                                                                                                                                                                     |

|                    |                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | 1µg/mL - 0.001µg/mL. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for additional information.(0.5mg/ml, more than 200 western blots) |
