| Immunogen                  | Recombinant human c-myc protein                                                                                                                                                                                                                               |
| Product Description        | It recognizes a transcription factor of 64-67kDa, identified as c-myc. This MAb shows no cross-reaction with v-myc. c-myc is involved in the control of cell proliferation and differentiation and is amplified and/or over-expressed in a variety of tumo... |
