| Immunogen                  | Recombinant chicken i-catenin                                                                                                                                                                                                                                 |
| Product Description        | Beta-catenin associates with the cytoplasmic portion of E-cadherin, which is necessary for the function of E-cadherin as an adhesion molecule. In normal tissues, beta-catenin is localized to the membrane of epithelial cells, consistent with its role ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
