## Product Datasheet

### **Anti-Maltose Binding Protein / MBP-probe Monoclonal Antibody(Clone: R29.6), Clone: [R29.6], Mouse ABI-36-3715-20**

|                            |                                                                                                                                                                                                                                                               |

| Immunogen                  | MOS maltose binding protein fusion protein.                                                                                                                                                                                                                   |
| Product Description        | Plasmid vectors for the expression of coding regions of eukaryotic genes in bacterial, insect and mammalian hosts are in common usage, such expression vectors frequently encode hybrid fusion proteins consisting in part of prokaryotic and in part, euk... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [R29.6]                                                                                                                                                                                                                                                       |
| Application Dilute         | Immunofluorescence (1-2ug/ml), Western Blot (1-2ug/ml),                                                                                                                                                                                                       |
