## Product Datasheet

**Anti-Cytokeratin 5/6/18 Monoclonal Antibody(Clone: LP34), Clone: [LP34],  
Mouse  
ABI-36-3775**

|                            |                                                                                                                                                                                                                                                               |

| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC                                                                                                                                                                                                                                                           |
| Species Reactivity         | Human, Rat                                                                                                                                                                                                                                                    |
| Immunogen                  | Detergent-insoluble fraction of psoriatic human epidermis                                                                                                                                                                                                     |
| Product Description        | It recognizes polypeptides of 58kDa, 56kDa, and 45kDa, identified as cytokeratin 5, 6, and 18 respectively. It shows no reaction with keratin 1, 8, or 19. This MAb shows a broad pattern of reactivity with epithelial tissues, from simple glandular epi... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [LP34]                                                                                                                                                                                                                                                        |
| Application Dilute         | Immunohistochemistry (Formalin-fixed) (0.1-0.2ug/ml for 30 min at RT)(Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95&degC followed by cooling at RT for 20 minutes),                |
