| Product Description        | Recombinant Human NKG2D ligand 2/ULBP2 Protein is produced by HEK293 expression system. The target protein is expressed with sequence (Gly26-Ser217) of human ULBP-2 (Accession NP_079493.1) fused with a 6*His tag at the C-terminus.... |
| Molecular Weight           | 22.57 kDa                                                                                                                                                                                                                                 |
| Tag                        | C-His                                                                                                                                                                                                                                     |
