| Manufacturer               | US Biological                                                                                                                                                                                                                                                  |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                              |
| Product Description        | TNFR II is a member of the TNFR family of transmembrane proteins, and is expressed in immune cells and certain endothelial cells. It is a high affinity receptor for TNF-alpha but manifests a lower affinity to TNF-beta. Signaling through this receptor ... |
| Molecular Weight           | 18.9                                                                                                                                                                                                                                                           |
| UniProt                    | <a href="#">P20333</a>                                                                                                                                                                                                                                         |
| Purity                     | 98% by SDS-PAGE and HPLC. Endotoxin: 0.1ng/ug (1EU/ug)                                                                                                                                                                                                         |
| Form                       | Supplied as a lyophilized powder from 10mM sodium phosphate, pH 8.0, 50mM sodium chloride. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml. Do not vortex.                                                                                    |
