| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant human prion protein                                                                                                                                                                                                                               |
| Product Description        | CD230 / human prion protein (PrP), also known as PRNP, is a ubiquitously expressed GPI-anchored cell surface glycoprotein associating with lipid raft components and functioning as a signaling molecule. CD230 / PrP plays a role in apoptosis in a cell ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/ml                                                                                                                                                                                                                                                       |
| Clone Designation          | [EM-20]                                                                                                                                                                                                                                                       |
| Isotype                    | IgG2a                                                                                                                                                                                                                                                         |
| Buffer                     | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Storage                    | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                   |                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------|
| Antibody Type     | Monoclonal Antibody                                                                       |
| Application Notes | Western blotting: Recommended dilution: 0.5 µg/ml, non-reducing conditions are essential. |
