| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | The antigen-specific T cell receptor (TCR) is composed of either alpha and beta subunit, or gamma and delta subunit. Majority of T cells present in the blood, lymph and secondary lymphoid organs express TCR alpha/beta heterodimers, whereas the T cell... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/ml                                                                                                                                                                                                                                                       |
| Clone Designation          | [IP26]                                                                                                                                                                                                                                                        |
| Isotype                    | IgG1                                                                                                                                                                                                                                                          |
| Buffer                     | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Storage                    | 2°C to 8°C                                                                                                                                                                                                                                                    |
| Antibody Type              | Monoclonal Antibody                                                                                                                                                                                                                                           |

|                   |                                                                                                    |
|-------------------|----------------------------------------------------------------------------------------------------|
| Application Notes | Flow cytometry: Recommended dilution: 2-4 µg/ml, positive control: human peripheral blood T cells. |
