| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | RBL-2H3 cells expressing human CLEC9A fused to an HA epitope                                                                                                                                                                                                  |
| Product Description        | CD370 / CLEC9A, also known as DNGR1, is a type II transmembrane glycoprotein with extracellular C-type lectin domain and intracellular ITAM-containing domain. Its expression is restricted to BDCA3+ conventional dendritic cells and to a subset of CD14... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/ml                                                                                                                                                                                                                                                       |
| Clone Designation          | [8F9]                                                                                                                                                                                                                                                         |
| Isotype                    | IgG2a                                                                                                                                                                                                                                                         |
| Buffer                     | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Storage                    | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Antibody Type     | Monoclonal Antibody                             |
| Application Notes | Flow cytometry: Recommended dilution: 1-4 µg/ml |
