| Product Description        | CD64 (FcγRI) is a cell surface receptor for Fc region of IgG. It is composed of specific ligand binding alpha subunit and promiscuous gamma subunit, which is indispensable for tyrosine-based signaling. However, even the alpha subunit can transduc... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                |
| Concentration              | 1 mg/ml                                                                                                                                                                                                                                                   |
| Clone Designation          | [10.1]                                                                                                                                                                                                                                                    |
| Isotype                    | IgG1, kappa                                                                                                                                                                                                                                               |
| Buffer                     | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                               |

|                   |                                                |
|-------------------|------------------------------------------------|
| Storage           | 2°C to 8°C                                     |
| Antibody Type     | Monoclonal Antibody                            |
| Application Notes | Flow cytometry: Recommended dilution: 4 µg/ml. |
