| Category                   | Proteine/Peptide                                                                                                                                                                                                                            |
| Application                | ELISpot, FACS, FC, FluoroSpot, IHC, WB                                                                                                                                                                                                      |
| Species Reactivity         | VZV                                                                                                                                                                                                                                         |
| Product Description        | ALWALPHAA is a linear peptidic epitope studied as part of Major viral transcription factor ICP4 homolog from Human herpesvirus 3 (Varicella-zoster virus). This epitope has been studied for immune reactivity, tested in T cell assays.... |
| Purity                     | 95%                                                                                                                                                                                                                                         |
| Sequence                   | ALWALPHAA                                                                                                                                                                                                                                   |
