| Manufacturer               | Agrisera                                                                                                                                                                                                                     |
| Host                       | Rabbit                                                                                                                                                                                                                       |
| Category                   | Antikörper                                                                                                                                                                                                                   |
| Product Description        | Rabbit anti-mouse IgG (H&L), affinity purified, is a secondary antibody which binds to mouse IgGs in immunological assays. Antibodies are adsorbed against human serum and affinity purified using solid phase mouse IgG.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                   |
| Purity                     | Immunogen affinity purified IgG.                                                                                                                                                                                             |
| Form                       | Liquid                                                                                                                                                                                                                       |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                                          |
| Application Dilute         | The optimal working dilution should be determined by the investigator                                                                                                                                                        |
