| Product Description        | Rabbit anti-human IgG (H&L) , DyLight594 Conjugate is a secondary antibody conjugated to DyLight 594, which binds to all human IgG in immunological assays. DyLight 550 has Amax = 593 nm, Emax = 618 nm. Antibodies are are affinity purified using soli... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                   |
| Purity                     | Immunogen affinity purified rabbit IgG.                                                                                                                                                                                                                      |
| Form                       | Lyophilized                                                                                                                                                                                                                                                  |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                                                                          |
| Application Dilute         | 1 : 20-1 : 2000 for most applications                                                                                                                                                                                                                        |

|                   |                                                                                                                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes | Based on immunoelectrophoresis, this antibody reacts with: heavy (i) chains on human IgG light chains on all human immunoglobulins.No reactivity is observed to: non-immunoglobulin human serum proteins. |
