| Host                       | Goat                                                                                                                                |
| Category                   | Antikörper                                                                                                                          |
| Application                | ELISA, IHC, WB                                                                                                                      |
| Species Reactivity         | Hamster                                                                                                                             |
| Immunogen                  | Purified syrian hamster IgG, whole molecule,                                                                                        |
| Conjugation                | hrp                                                                                                                                 |
| Product Description        | Goat anti-Hamster IgG (H&L) is a secondary antibody conjugated to HRP, which binds to hamster IgG (H&L) in immunological assays.... |
| Clonality                  | Polyclonal                                                                                                                          |
| Purity                     | Immunogen affinity purified goat IgG.                                                                                               |
| Form                       | Lyophilized                                                                                                                         |
| Antibody Type              | Polyclonal Antibody                                                                                                                 |
| Application Dilute         | The optimal working dilution should be determined by the investigator                                                               |

Application Notes

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Centrifugate to remove any particulates, Prepare fresh working dilutions daily
