| Application                | ELISA                                                                                                                                                          |
| Species Reactivity         | Human                                                                                                                                                          |
| Product Description        | Accurately assess beta 2-microglobulin levels in human samples with our Human Beta 2-Microglobulin ELISA Kit, suitable for renal and immune system studies.... |
| Range                      | 3.125 ng/ml - 100 ng/ml                                                                                                                                        |
| Sensitivity                | 0.822 ng/ml                                                                                                                                                    |
| Form                       | Sandwich ELISA                                                                                                                                                 |
| Samples                    | Plasma,Serum,Urine                                                                                                                                             |
| Target                     | VP40 Matrix Protein                                                                                                                                            |
